# Maps Show & Tell

Jorge Sanz

2020-05-20, Kibana Maps

**«Show and tell** is the practice of showing something to an audience and telling them about it.

[...]

*For example, a child will bring an item from home and will explain to the class why they chose that particular item, where they got it, and other relevant information.»*

[https://en.wikipedia.org/wiki>Show\\_and\\_tell\\_\(education\)](https://en.wikipedia.org/wiki>Show_and_tell_(education))

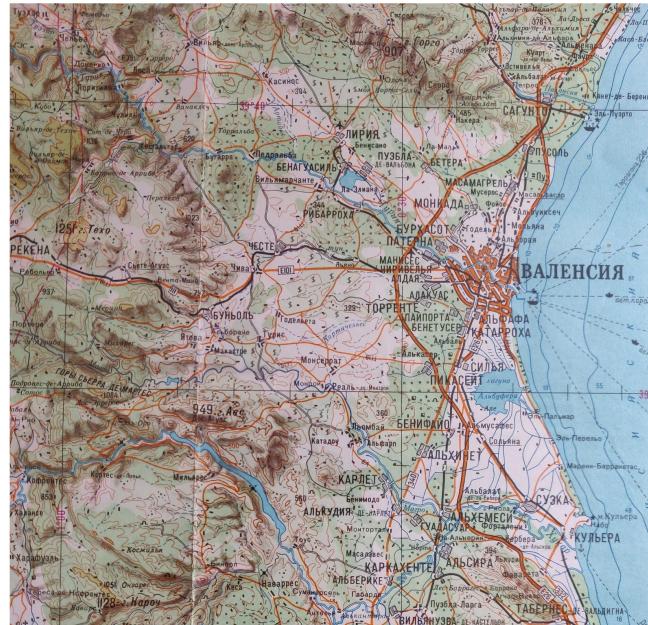

- Picture of a map\* you love/hate
- Where did you find it
- What do you (dis)like
- Let's do 3-5 minutes

\* It can be paper or digital, a classic map (like a topo map) or anything “geo” like a 3D visualization, or a dashboard

# This is not a roadmap

**Phase 1**  
Roadmap for Reopening  
Society and Business

The COVID-19 pandemic has disrupted our lives. Now, thanks to your patience and sacrifice, we are taking the first steps on a 5-phase reopening of our country.

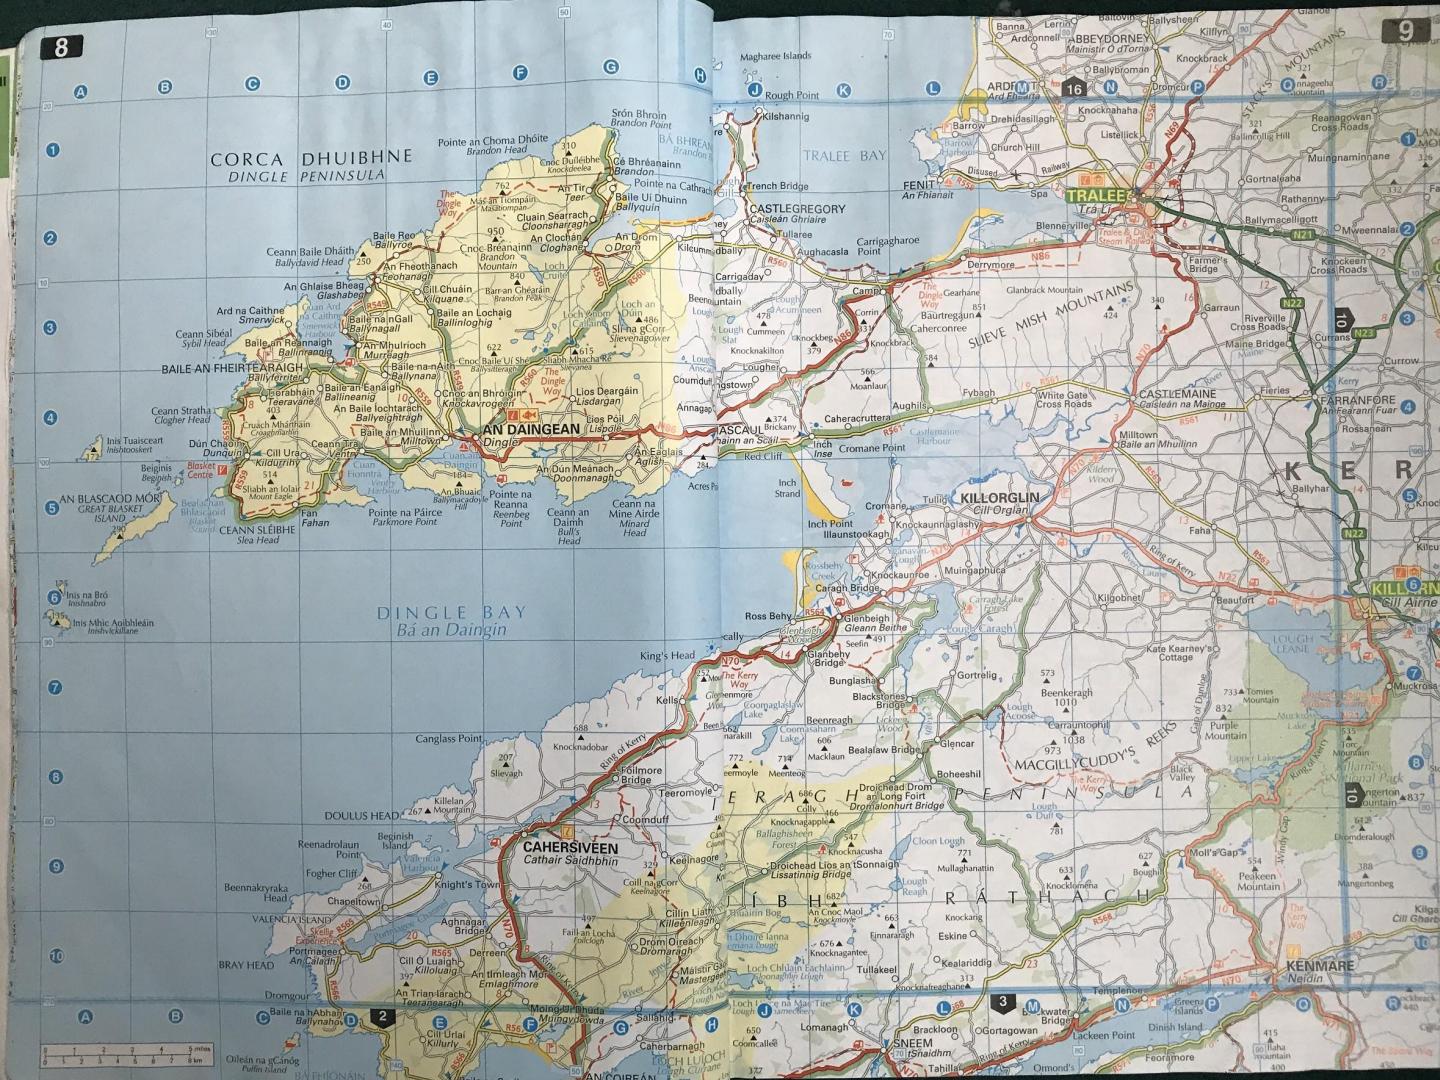

It is important to be aware of Public Health restrictions and guidance:

<b>1</b> Work from home if you can. Bear in mind that most workplaces, especially offices, remain closed.	<b>2</b> The <u>5km</u> limit applies to outdoor exercise, social visits and visits to public amenities.	<b>3</b> Social distancing, hygiene measures and coughing and sneezing etiquette must always be observed. Wash your hands regularly.	<b>4</b> Stay home and self-isolate if sick.	<b>5</b> Older and vulnerable people who are cocooning should stay indoors, apart from brief outdoor exercise.
--	---	---	---	---

These are some of the things that **change** from Monday, 18th May:

 Community Health	 Education & Childcare	 Economic Activity & Work	 Retail, Services & Commercial Activity	 Cultural & Social	 Transport & Travel
---	--	---	--	--	---

# This is a roadmap!

# Carte Figurative des pertes successives en hommes de l'Armée Française dans la Campagne de Russie 1812 ~1813.

Dessiné par M. Minard, Inspecteur Général des Ponts et Chaussées en retraite Paris, le 20 Novembre 1869.

Les nombres d'hommes présents sont représentés par les largeurs des zones colorées à raison d'un millimètre pour dix mille hommes; ils sont de plus écrits en lettres des zones. Le rouge désigne les hommes qui ont péri en Russie, le noir ceux qui en sortent. — Les renseignements qui ont servi à dresser la carte en sont tirés dans les ouvrages de M. Chier, de Legay, de Fezensac, de Chambray et du journal intime de Jacob, pharmacien de l'Armée depuis le 28 Octobre.

Pour mieux faire juger à l'œil la diminution de l'armée, j'ai supposé que les corps du Prince Jérôme et du Maréchal Davout, qui avaient été détachés sur Minsk et Mohilow se rejoignaient vers Orsha et Wilno, avant de rejoindre marche avec l'armée.
